

2360

ALL IN ONE CLEANER DISINFECTANT

The **Chemico 2360 All In One Cleaner Disinfectant** product works on all non-porous surfaces including glass. It will kill the Coronavirus when used full strength, allowing a dwell time of 10 minutes. This disinfectant also eliminates Avian Influenza A (H5N1), Hepatitis B and C, Herpes Simplex Type 1 and 2, Human Coronavirus, Respiratory Syncytial, Vaccinia, and Influenza A viruses. It also provides defense against other contaminants such as Salmonella and E-Coli. Please read the label for a complete list. Using this product doesn't just disinfect... it gets rid of dirt, kills fungi, and controls mold and mildew.

PRODUCT APPLICATION

- Protect against disease
- Eliminate fungi
- Clean floors, windows, walls, stainless steel, porcelain, ceramic tile, laminates and many more solid surfaces

TECHNICAL DATA

- Physical State: Liquid
- Color: Clear
- Odor: Odorless
- Specific Gravity (H₂O=1.00): 1 @ room temperature (68°F)
- Typical pH: 9-12

DIRECTIONS FOR USE

Chemico 2360 is a concentrate. See label for dilution ratios and dwell time requirements.

SAFETY

- Odor: Odorless
- Specific Gravity (H₂O=1.00): 1 @ room temperature (68°F)
- Typical pH: 9-12

DIRECTIONS FOR USE

Use Chemico 2360 to preclean heavily soiled areas. This product can be applied manually by sponge, brush, spray or mechanical spray devices. When spraying, stay 6 to 8 inches away from the surface to receive the best coverage then let the product dwell for 10 minutes before removing with a clean wipe. See label for full instructions.
