

# 7470I

## THICK PAINT STRIPPER

**Chemico 7470I** was developed to help reduce solvent usage and VOC's. This thixotropic paint remover continues to emulsify paint after application while you work in other areas -- unlike typical solvents that flash off after application that require you to continue using more chemical. This product meets your cleaning needs while reducing cost and decreasing your environmental footprint.

### PRODUCT APPLICATION

- Use on vertical or horizontal surfaces with paint build-up
- Can also be used to remove adhesives and urethane coatings
- Remove 2K clear coats

### TECHNICAL DATA

- Physical State: Liquid
- Color: Clear Amber
- Odor: Mild Slightly Amine
- Specific Gravity (H<sub>2</sub>O=1.00): 0.96 @ room temperature (68°F)
- Typical pH: NA
- VOC Content: 7.45lb's per Gallon

### DIRECTIONS FOR USE

Use Chemico 7470I as supplied. Apply directly to the surface to be cleaned. Let sit for 5-30 minutes then wipe. Scrape or power wash. Repeat process if necessary and rinse area when complete. Chemico 7470I will be slippery so rope off any areas to deter traffic when using.

### SAFETY

Contact your Chemico representative for additional product information and always review the Safety Data Sheets (SDS) before using this or any Chemico product.
